About Vonos Auto Engineering

- Vonos Auto Engineering Nigeria was established to provide best in class auto care that can compete with any other in the world. We pride ourselves in delivering world class auto care and repair services. Our passion is to ensure our clients' automobiles receive the best care thereby extending usage and efficiency.
- The Automotive Industry has long played an important role in the growth and development in Nigeria. Automotive industry had been the key source of various vehicles being used for transportation. The company is a subsidiary of Vonos Motors Limited which had been in operation since 2016. Vonos Auto Engineering is an indigenous private limited liability company duly registered with CAC in accordance with Company and Allied Matters Act 1990 with RC No 1346060 to carry out Auto Sales, Auto Repairs, (Fleet) Maintenance and Auto related Services in Nigeria.
- Whilst the aim of setting up Vonos auto is to bridge the gap between car users and auto maintenance, the company is also enthusiastic about giving fresh Engineering graduates from various higher institutions in Nigeria, the opportunity to be trained and pursue a rewarding career in the automotive industry

Mission Statement

Vonos Auto Engineering is committed to ensuring that vehicle owners and users are guaranteed a complete peace of mind through diligent and committed services via diagnosing from root cause of problems and fixing with appropriate tools.

Vision Statement

We want to become the most trusted and sought after automotive and fleet service Centre in Abuja. Vonos is willing to deliver maximum satisfactions to all customers and thereby establishing win-win relationships

Our Services../2

- 🚗 We emphasize preventive maintenance measures to help our customers save money from serious and expensive breakdown. While we have worked hard to ensure all relevant tools and equipment are available to our experienced work force, thereby entrusting you with the services that guarantee maximums safety on the road, we also treat our customers with optimum respect and friendliness
- 🚗 At Vonos, we adopt the use of up to date tools and machineries to diagnose and fetching out faults while fixing them according to manufacturer specs. An unresolved fault in vehicles may not only lead to damaging other components but unexplainable huge cost when escalated.

Automotive Service Capabilities

- We are a large, well organized automotive shop with a good number of service bays to provide faster service.
- We perform all mechanical and electrical services for vehicles.
- We service vehicles ranging from passenger cars, light duty trucks up to one ton and some medium duty.
- We also service Diesel vehicles.
- We service all brands of vehicles.
- We specialize in highly technical challenges and drivability problems.

Automotive Service Capabilities

Vehicle Brand Specialty & Tools: We handle all Brands of Vehicles and all our workshop tools and equipment were imported from the best Auto companies in Europe, Asia and US (Standard automobile garage equipment for a modern garage).

Literatures On Our Services

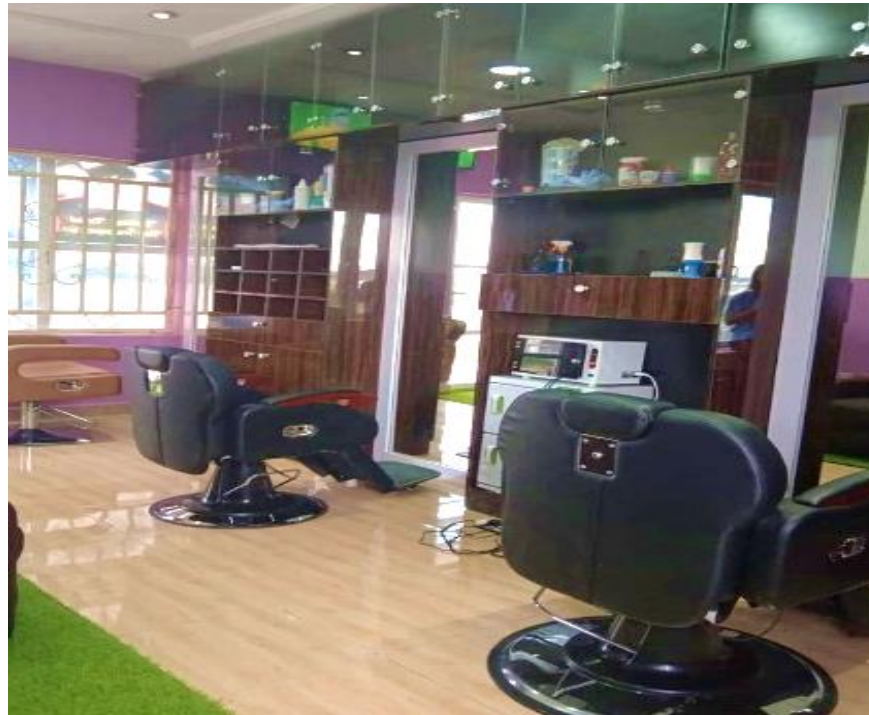

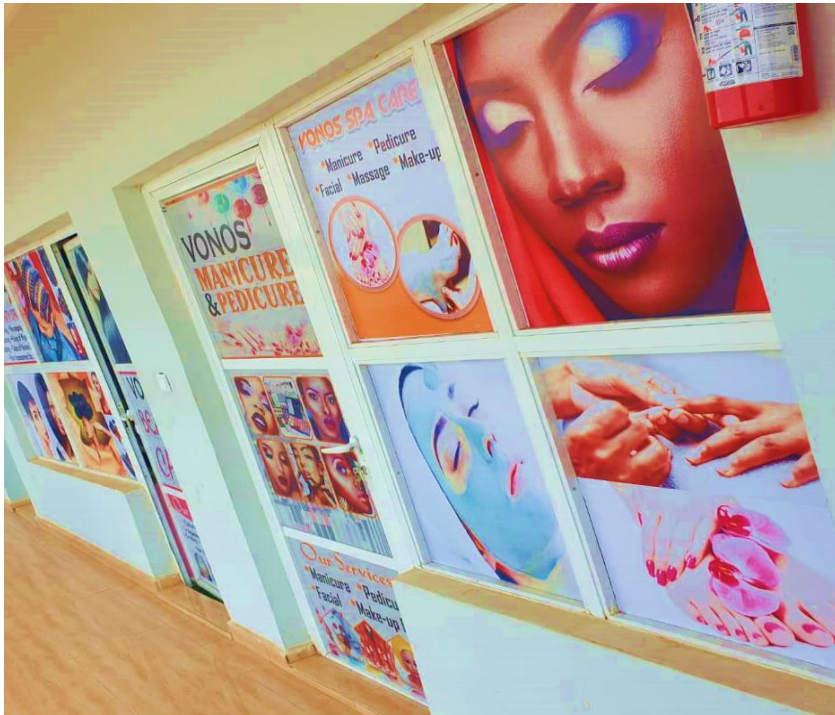

- 🚗 **Autoplan Software:** In order to back-up transparency, Vonos Auto Engineering has implemented the AUTOPLAN computer program. The basic principle of this program is that the quotation becomes the job card and the job card becomes the invoice. As such, each and every detail activity performed during the repair/rebuild process will be reflected on the final invoices. A very important feature of AUTOPLAN is the ability to link and store specific job card photos of each item as well as technical reports
- 🔧 **Marketing Service and After Sale Service:** This aspect of our business is based on attitude. All service organizations have the capability of performing outstanding services and after sale services. The question is, how prepared they are to perform these services at all hours under trying circumstances. On this count, Vonos Auto Engineering is proud to announce its preparedness to assist our most valued clients under any circumstances.
- 🚗 **Delivery:** Vonos Auto engineering specializes in high quality major and minor services with a quick turnaround. We will agree with us that; the less time you have to be without your car, the better! Vonos Auto engineering offers a free delivery and collection service.

Literatures On Our Services

- 🚗 **Pricing.** Prices are based on a principle of professional value for money. Vonos Auto Engineering is not in the game of discounted patch repair jobs. It is either we do it professionally or we don't do it at all.
- 🚗 **Mechanical Aid:** Mechanical aid is made to operate on the same principles as medical aid. We have identified that servicing and/or repairing one's vehicle usually comes as an unexpected expenditure. It is not something that one usually accounts for. We have understood this and have come up with ways to assist our customers in making sure that they can afford to keep their cars on the road and in a safe operating condition. This is a situation whereby customers pay a monthly premium for the service and repair requirements for their vehicle specifically.
- 🚗 **Complimentary Shuttle Service:** We offer a complimentary shuttle service so you can depend on us to get you to work and back while your vehicle is here for service. We also offer an online appointment request form that is available 24 hours a day. Our night drop box service allows you to drop off your car anytime our shop is closed too.

Literatures On Our Services

- 🔗 **Shops & Conveniences:** We have a comfortable waiting area for our while-you-wait services. In our waiting area, you will find refreshments, free wi-fi, very comfortable chairs. We also have Vonos beauty care- fully equipped with state-of-the-art facilities to meet the Beauty care needs of our customers/clients and their families. D-Vs Kids wear where you can shop quality wears for your kids, good and well-maintained clean toilets for our customers.

Literatures On Our Services

- 🔗 **Our Parts/Products:** We source our Genuine Auto Parts from top Original Equipment Manufacturers as well as Vehicle Manufacturers and Aftermarket suppliers. It is our aim to source the best possible products in a particular quality brand at the best possible price, so that we can remain competitively priced at all times. This policy means that we do not sell just one brand of a particular component but you can be sure that the product we supply has been carefully chosen to match the technical requirements of your vehicle. Supplying top-quality products to our customers requires excellent engineering and design processes, together with outstanding manufacturing quality. Our parts manufacturers use the latest revisions of high-end 3D production development environments and the latest manufacturing technologies for highest precision and lowest tolerance

Insurance/Cover

The company is certified by the Federal Fire Service. All employees are insured and medically covered against accidents and emergencies.

Why patronize us? Every serviced vehicle suspected of having issues are:

- ✚ Diagnosed for free. Such checks would normally cost up to N15, 000.00
- ✚ Effective customer liaison.
- ✚ All repaired jobs carried out are with warrantee under our warranty policy.
- ✚ Speed and Efficiency
- ✚ OEM Specs. All repairs - and rebuild jobs are done in strict accordance with OEM (Original Equipment Manufacturers) prescriptions and specifications.

Our People

Passion first: To face every day challenges, knowledge and expertise are essential, but not enough if you are not driven by passion. This passion is what we share in our team, and what keeps us striving for excellence in everything we do.

Training Program: To deliver excellent services and design innovative products, our team skills and competences are of crucial importance. We pursue a continuous training program both internally by sharing technical knowledge and organizing specific training sessions, and also externally through different certification programs. We also sponsor several Auto training programs for our employees, as we truly want the best preparation for our team, by turning them into first-class service experts for our customers.

Our People../2

Employee Empowerment: We don't think of empowerment only as a business strategy to improve efficiency, but as a natural way to develop a sense of ownership and responsibility among our team. We want our employees to openly share suggestions about their work and the company as a whole. We want them to feel part of the company, as they are the ambassadors of our organization.

Career Planning. Individual career planning is regarded as of utmost importance in order to motivate personnel and plan operational expertise. As such a robust career matrix regarding each individual staff member is in place.

Delivering Excellence Through Our People: We value our Team when selecting our new employees, we seek passionate and talented people, with excellent track records and soft skills. Essentially, we look for people who are creative, constructive and ready to experiment new things. Our team is characterized by three levels of experience: Senior, Experienced and Junior Engineers.

Proactive Teamwork: One of the keys to Vonos Automotive Engineering's success is our ability to work together as a team, and support each other in finding the best solutions for different jobs. Sharing know-how and experience enables us to perform our jobs and services brilliantly, adding value to clients.
